Education

Asia e University & CCIT FTUI — Depok & Malaysia
Bachelor of Information and Communication Technology & Information Technology (Full Stack Developer) (3.77 & 3.58) — 2024 – Present
Relevant Coursework: Human Computer Interaction, Web Application, Software Quality Assurance, Database Systems, Computer Security, Design Language: Unified Modelling Language (UML)

Experience

Lunera Streaming Platform (Web & Mobile) — Depok, Indonesia
Full Stack & SQA Developer — February 2026 – April 2026

- Co-developed a secure web streaming platform and Flutter mobile client alongside a partner, utilizing CodeIgniter 4 and MVC architecture.
- Designed and executed comprehensive test plans, documenting Gherkin-style test cases and test metrics to validate overall software quality.

Comic Web Application & DevOps Infrastructure — Depok, Indonesia
Backend & DevOps Engineer — November 2025 – December 2025

- Collaborated within a two-person team to architect a distributed backend system using Java Spring Boot and MySQL, implementing JWT token authentication.
- Partnered to modernize application infrastructure by containerizing Nginx, PHP, and MySQL services into isolated Docker environments.
- Co-engineered an automated CI/CD pipeline using GitHub Actions and Self-Hosted Runners for streamlined testing and deployment.

Pawprint Haven Vet Clinic — Depok, Indonesia
Full Stack Web Developer — October 2025

- Independently developed a comprehensive veterinary management web application using PHP, MySQL, HTML, and CSS.
- Engineered role-specific dashboards with secure session management for administrators, veterinarians, and pet owners.

Leadership & Activities

CCIT FTUI Student Society (CSS) — Depok, Indonesia
Head of Department Student Advocacy and Welfare at CSS (CCIT FTUI Student Society) — December 2025 – Present

- Managed the leadership selection process for the 2026 Induction Days by directing staff execution and actively mentoring candidates on their strategic proposals and interview preparation.

PEMIRA 2025 CSS — Depok, Indonesia
Head of Publication, Design, and Documentation at PEMIRA CSS — September 2025 – October 2025

- Led a 10-person media team to execute comprehensive event documentation, design promotional social media campaigns, and direct official ID card photoshoots.

Induction Days 2025 — Depok, Indonesia
Head of Division, Medic — July 2025 – August 2025

- Trained divisional staff on first-aid protocols and oversaw comprehensive health monitoring for incoming students.
- Administered immediate on-site medical care and managed emergency escalations by communicating critical updates to senior leadership and external clinical personnel.
